PROJECTS

- **Portfolio** - It contains all my projects and published articles. It is prepared using ReactJS and Bootstrap.
- **Secrets** - It lets the user Register or Login and post their secrets to the Website.
- **Daily Journal** - The user can either write Dairy by composing a new Journal Page or visit the existing Pages.
- **Keeper App** - Keeper App, a React project helps the user keep track of the tasks or lists in their day-to-day lives. These lists can be deleted when not in use.
- **Simon Game** - It's the classic version of the popular Simon game! It's an exciting electronic game of lights and sounds in which players must repeat random sequences of flashing lights by pressing the colored pads in the correct order.
- **TinDog** - It's a front-end project created using Bootstrap components such as carousel, cards, plugins, etc.
- **Dice Game** - This Game uses JavaScript to randomly roll two dice and declare the winner.
- **Newsletter Signup** - Newsletter signup is a signup page for MailChimp.
- **To-Do List** - It uses the database to create, store, update, and delete, lists as well as list-items in the TodoList.
